

Snabbbit

Snabbbit is a hyperlocal home services platform founded by **Aayush Agarwal** in **2024** with the vision of revolutionizing the home services market in India. The platform connects users with nearby trained professionals for everyday household chores and delivers services at the customer's doorstep within just 15 minutes.

The application is available on both Android and iOS platforms and currently operates across 11 Indian cities including Bengaluru, Delhi, Ghaziabad, Gurugram, Hyderabad, Mumbai, Navi Mumbai, Noida, Pune and Thane.

Vision and Goal:

Snabbbit aims to empower every Indian household with safe and reliable on-demand home help while also creating dignified and flexible earning opportunities, especially for women across India.

Instant Help → Great Experience → Repeat Booking → User Loyalty → Growth.

This cycle forms the foundation of Snabbbit's long-term customer retention and business expansion strategy.

Core Values

Snabbbit operates on four major values:

- Safety First
- Respect and Dignity
- Speed and Reliability
- Transparency

These values help the company maintain trust among both customers and service professionals.

Services Offered

Snabbit provides a wide range of daily household services such as:

- Dishwashing
- Kitchen Cleaning
- Fan Cleaning
- Laundry Assistance
- Bathroom Cleaning
- Window Cleaning

The company mainly focuses on highly frequent household chores that customers require regularly.

Working Model

Snabbit acts as a managed marketplace platform that handles:

- Background verification of professionals
- Skill training
- Scheduling and allocation
- Secure digital payments

This allows families to conveniently access reliable household help while enabling workers to earn with flexibility and dignity.

Pricing Strategy

Snabbit follows an hourly pricing model where charges are clearly displayed on the platform.

The pricing strategy focuses on:

- Transparency
- Affordability
- Convenience
- Frequent usage

This encourages repeat bookings and customer loyalty.

Business Model :

Snabbit's business model is both recurring and scalable. The company generates revenue primarily through commissions earned on every completed transaction.

Revenue Sources

- Commission on bookings
- Hourly service charges
- Repeat customer usage
- Expansion into multiple service categories

Growth and Profitability

Snabbit has reportedly raised around \$112 million across five funding rounds.

The company states that profitability at a micro-market level begins after approximately 500 jobs per day within a locality cluster. Some mature markets already handle more than 1,000 jobs daily.

Currently, Snabbit processes nearly 40,000 bookings per day across major cities including Mumbai, NCR, Bengaluru, Pune, and Hyderabad.

Future of Snabbit:

The future is bright as they are planning to expand services and include babycare, elderly care and cooking services.

Competitor Analysis:

Major competitors are

1. **Yes Madam:** Primarily focuses on salon-at-home and beauty services.
2. **Urban company:**

- Provides beauty, repair, appliance, and cleaning services.
- Operates on a broader service model.

Uniqueness Selling Proposition (USP):

Snabbit differentiates itself through:

- Hyperlocal operations
- 15-minute service availability
- Affordable pricing
- Fast and reliable service
- Focus on recurring household chores
- Managed workforce system

Unlike many competitors that focus on scheduled or premium services, Snabbit emphasizes instant everyday assistance.

Future Scope

The future growth potential of Snabbit appears strong due to the increasing demand for convenience-based home services in urban India.

The company plans to expand into additional categories such as:

- Babycare
- Elderly care
- Cooking services

This expansion can help Snabbit increase customer retention, diversify revenue streams, and strengthen its presence in the Indian home services industry.
